

WHERE *KEEN KUTTER* POCKET KNIVES ARE MADE

The Walden Knife Company
The Home of
KEEN KUTTER Cutlery

These are the buildings of the Walden Knife Co. at Walden, New York, the largest factory of its kind in the world, where *KEEN KUTTER* Tools and Cutlery are manufactured. The property covers eight acres. There are over 100,000 square feet of floor space in the building, and 700 skilled workmen employed.

NUMERICAL LIST OF POCKET KNIVES

KEEN KUTTER* POCKET KNIVES.

HOW THEY ARE MADE,
POCKET BLADES.

No. 1—Pocket Blade, for No. K2420, Partially Forged; Showing Steel Bar from which it is being Fashioned.

No. 2—Pocket Blade Forged, Ready for Hardening and Tempering or Grinding.

No. 3—Pocket Blade Ground, Ready for Drilling and Filing, or Drilling and Squaring.

No. 4—Pocket Blade Ready for assembling, Filled and Dressed, or Drilled, Squared and Dressed.

PEN BLADES.

No. 1—Pen Blade for No. K2420, Partially Forged; Showing Steel Bar from which it is being Fashioned.

No. 2—Pen Blade Forged, Ready for Hardening and Tempering or Grinding.

No. 3—Pen Blade Ground, Ready for Drilling and Filing, or Drilling and Squaring.

No. 4—Pen Blade Ready for Assembling, Drilled, Filled and Dressed, or Drilled, Squared and Dressed.

No. 5—Spring Steel, from which Spring is Produced.

No. 6—Spring, Dressed and Drilled, Ready for Adjusting.

No. 7—Spring Adjusted, Filled, Hardened, Tempered and Dressed.

No. 8—Sheet Brass, from which Linings are Pressed.

No. 9—German Silver, from which Bolsters are made.

No. 10—Blank for Bolster, Pressed Ready for Stamping.

No. 11—Bolster Stamped up, Ready to Fasten to Lining.

KEEN KUTTER* POCKET KNIVES.

HOW THEY ARE MADE.

No. 12—Brass Strip, Pierced, Ready to Receive Bolster.

No. 13—Bolsters "Chopped on" Lining, Ready for Passing through Pattern Dies.

No. 14—Scale Pressed, Ready for Drilling.

No. 15—Handle Covering, Ready for Fitting.

No. 16—Covering Fitted, Ready for Name Plate.

No. 17—Name Plates, or Shields, and German Silver from which they are made.

No. 18—Scales, with Covering Fitted, Showing Name Plate and Reverse Side, Ready for Assembling into Handle.

No. 19—Division Scale, or Center Lining.

No. 20—Knife Ready for Final Adjusting—Note Loose Rivets and General Rough Appearance of Knife.

No. 21—The Finished Article.

INFORMATION

REGARDING KEEN KUTTER* POCKET KNIVES.

It is our aim to furnish, under the **KEEN KUTTER** Brand, the Highest Quality of Pocket Cutlery which can be produced. That we have accomplished this is shown by the Awards for the Highest Quality, granted to this line at the Louisiana Purchase Exposition, held in St. Louis, Mo., in 1904, and the Lewis & Clark Exposition, held in Portland, Ore., in 1905. We believe this result cannot fail to follow from the method which we use in the manufacture of the goods.

It is our constant aim to see that everything about the line is of absolutely the Highest Quality, from the selection of the Raw Material to the Wrapping and Packing of the finished product.

WORKMANSHIP—Nearly 50 per cent of the men who manufacture this line were schooled in the art of making Fine Cutlery in the best English factories, where they learned their trade, and where their fathers and grandfathers spent their lives in the manufacture of Pocket Knives. The men are liberally paid for their work, and are constantly reminded that the item of quality is of much more importance than quantity.

BLADES are made from the Highest Grade of English Crucible Steel imported especially for the purpose. They are Forged by hand from the Bar, and not stamped out from sheet steel (the method employed by many makers of Knives). They have an absolutely Uniform Temper, and are Sharpened by Hand to a Sharp Cutting Edge, Ready for Use.

As specified in the descriptions, the Blades are either Full Crocus Polished (i. e., each Blade Polished on Both Sides) or Half Polished (i. e., Large Blade Polished on One Side and other Blades Glazed Finish).

PATTERNS OF BLADES—The line contains every possible shape of Blades which is at all practical, as is shown by the following illustrations:

Spear.

Saber.

Clip.

Saber Clip.

Spey.

Sheep Foot or Tobacco.

Wharncliffe.

Eraser.

Razor.

Florist Square Point Grafting Knife.

Budding.

Pruning.

Cotton.

Combination Electricians' Contact Point, File and Wire Scraper.

Screw Driver.

Corn.

Flexible Nail File.

Pen.

File.

Patent Leather Punch Blade.

Cuticle Pusher.

Flesh Blade.

Combination Blade, with Cap Lifter and Screw Driver.

Can Opener.

Combination Blade, with Cap Lifter, Tack Puller and Screw Driver.

Combination Blade, with Cap Lifter, Prest-O-Lite Tank Key and Screw Driver.

INFORMATION

REGARDING KEEN KUTTER* POCKET KNIVES

(Continued).

COVERINGS ARE AS FOLLOWS:

SOLID GOLD, 14K.

STERLING SILVER, $\frac{925}{1000}$ FINE.

GERMAN SILVER—Producing an appearance quite similar to Sterling Silver.

PEARL—Obtained through the London markets from the Dutch East Indies and Australian Fisheries, where the Highest Quality of Pearl is found.

EGYPTIAN PEARL—Obtained through the London markets from the Dutch East Indies and Australian Fisheries, where the Highest Quality of Pearl is found.

SEAPERL—A manufactured Composition made in Limited Colors which are very Difficult to Produce.

GRECIAN PEARL—A manufactured Composition which is a most excellent imitation of Genuine Pearl.

GENUINE IVORY—Obtained from the elephants of the West Coast of Africa, where the Ivory is found to be much Superior in Quality—especially in hardness—to that of the Eastern Coast, and of Asia.

CUT STAG—Made by Artificially Cutting the Second Layer of Genuine Stag, or sometimes Bone, and carefully coloring until it so closely resembles Genuine Stag, both in its irregular surface, and color, as to be difficult to distinguish from the real article.

WHITE BONE—The shin bone of beef cattle, which, when carefully selected and cured, gives a covering capable of High Finish and Good Wearing Qualities.

ALUMINUM—Which is especially adapted for Engraving Fancy Decorations.

GENUINE STAG—Outside cut of the horn, obtained from Hungary, Bohemia, Ceylon and China, which countries produce the Highest Quality of Stag.

TORTOISE SHELL—Obtained chiefly from the Hawk's Bill Tortoise, found in various parts of the world, especially in Asia and Australia.

BUFFALO HORN—From the Buffaloes of Siam and India.

COCOBOLO—A hard, red wood of very fine grain, which grows chiefly on the Isthmus of Panama.

GENUINE EBONY—A hard, black wood of very fine grain, obtained chiefly from the East Coast of Africa and Madagascar.

CELLULOID—A manufactured composition; produced either Transparent or in a great Variety of Colors. It may be made in Imitation of almost any of the other coverings which are used on the Knives except German Silver.

LININGS—The Linings are of German Silver, Brass or Steel, whichever is best adapted to the particular Knife on which it is used. The outside edges are Milled (or Knurled), in several of the more expensive patterns.

BOLSTERS—The Bolsters are, in the great majority of cases, of German Silver, or in a few cases, on the heavier Knives, of Steel.

RIVETS—The Rivets are of German Silver and Steel.

SHIELDS are made of German Silver, in various shapes and sizes, as best adapted to each individual pattern.

BACK SPRINGS are made of Forged Steel, Uniformly Tempered, Carefully Fitted and Full Polished, as specified in the descriptions; some of the patterns have Fancy Hand Engraved Backs.

CARE OF A KNIFE—Much trouble is caused and many Knives prove unsatisfactory from the lack of proper care.

A well made Pocket Knife is a piece of very fine mechanism, and should be kept cleaned and oiled at the joints as carefully as any other piece of fine mechanism. If this is done we are confident that every Pocket Knife bearing the **KEEN KUTTER** Brand will give the user complete and lasting satisfaction. If it does not, it is amply protected by the liberal guarantee which companies **KEEN KUTTER** Pocket Knives and **KEEN KUTTER** goods.

WE ABSOLUTELY GUARANTEE POCKET KNIVES AGAINST DEFECTS AND FLAWS.

KEEN KUTTER TEMPER OR

PATTERNS OF HANDLES—A great variety of shapes and designs of Handles are used in this line, the principal ones of which, with the names by which they are most commonly known, are given below:

Balloon. Easy Opener. Crown Jack. Equal End Jack.

Fish Jack. Gun Stock Jack. Regular Jack. Serpentine Jack.

Sway Back Swell Center Jack. Swell End Jack. Pruning.

KEEN KUTTER Pocket Knives are all made in our own factory at Walden, N. Y., the largest pocket knife factory in the world. But while America thus leads in manufacturing the finished knives, the English produce the best steel for the blades. The KEEN KUTTER Pocket Knives are, therefore, made in America, of English crucible steel.
